

What is claimed is:

- Sub a1
1. A product distribution and return system, comprising:
a product dispensed from a vending machine in one location; and
a return mailer dispensed with the product, the product returnable in the
5 return mailer to a return center; the return center in another location.
 2. The system of claim 1 further comprising a controller containing a database
with information on the product, the controller connected to the vending machine and
to the return center with transmission links.
10
 3. The system of claim 1 wherein the product is a media product selected from
the group consisting of DVDs, CDs, videotapes, software media and audio tapes.
 4. The system of claim 1 wherein the product is rented using a transaction card.
15
 5. The system of claim 1 wherein the vending machine is located in a location
selected from the groups consisting of an airport, a railroad station, a bus station, a
subway, a store and a hotel.
 - 20 6. The system of claim 1 wherein the product is obtained in a first location, used
in a second location and deposited in a collection box in a third location.
 7. The system of claim 2 further comprising a service agent facility having an
automated service agent, the automated service agent having means for accessing the
25 database.
 8. The system of claim 7 further comprising instructions issued by the controller
to the return center and to the service agent facility, the instructions providing
information on inventory management.
30

9. The system of claim 1 further comprising a transaction identifier on the return mailer.

10. The system of claim 9 wherein the transaction identifier is a scannable code.

11. The system of claim 10 wherein the return mailer has pre-paid postage and is pre-addressed to the return center.

~~12. The system of claim 1 wherein the return mailer is also a product case.~~

~~13. The system of claim 1 wherein the product is not returned to the return center.~~

14. The system of claim 1 wherein a product rental fee is defined in a set of product rental terms, further wherein the product rental fee includes fees for non-compliance with the product rental terms.

15. The system of claim 14 wherein the return center determines compliance or non-compliance with the product rental terms, further wherein an additional charge is posted to a consumer account or a future credit to a consumer account is canceled for non-compliance with the product rental terms.

16. The system of claim 15 wherein product rental terms include terms related to a specified return date and product condition.

17. The system of claim 16 wherein the database contains information selected from the group consisting of a transaction identifier, product title, product dispense date, specified return date, product condition, product rental fee and product purchase price.

C1
Cont'd

18. ¹⁴ The system of claim 17 wherein the return center determines compliance with the specified return date by noting the actual return date and comparing the actual return date with the specified return date in the database.

Sub
93

19. ¹⁵ A method of doing business, comprising:
providing a media product for rent at one location, the media product dispensed with a return mailer; and
requesting return of the media product in the return mailer to another location within a period of time, the return mailer depositable with a third-party delivery service.

20. ¹⁶ The method of claim 19 wherein a unique code identifies the media product, rental location and rental date.

15 21. ¹⁷ The method of claim 20 method further comprising storing information about the media product, rental location and rental date on a database.

22. ¹⁸ The method of claim 21 further comprising issuing credit or canceling additional charges depending on product condition and product return date.

20

23. A method of renting media products, comprising:
consumer activity, wherein the consumer activity includes a vending machine transaction and a product return step; and
provider activity, wherein the provider activity includes return center activity and service agent activity.

25

24. The method of claim 23 wherein the consumer activity and the provider activity are coordinated by a central controller having a database, the database containing information on the vending machine transaction, a product return date, and a product condition.

30

25. The method of claim 24 wherein the vending machine transaction is entered into the database with a transaction identifier.

26. The method of claim 23 wherein the vending machine transaction comprises:
5 a consumer activating a vending machine with a transaction card;
the consumer selecting a product; and
the product dispensing from the vending machine with a return mailer.

27. The method of claim 26 wherein the transaction card is charged for a full
10 purchase price or a rental price.

Sub A4 28. The method of claim 27 wherein the return center activity comprises:
opening the return mailer;
15 inspecting the product inside the return mailer to determine if the product is
in good condition;
comparing information in the database with the product inside the return
mailer; and
issuing a credit for a difference between a rental price and a purchase price or
canceling a future charge when the product is return in good condition and on time.

20 29. The method of claim 28 wherein a pro-rated credit is issued when the product
is returned late or in less than good condition.

Sub A5 30. An apparatus for dispensing products, comprising:
25 means for selecting a particular product;
means for dispensing the particular product together with a return mailer to a
customer;
means for identifying the particular product; and
means for recording a transaction date in a database.
